Continuation of 2. NOTE: The proposed changes to the claims would change the scope of the claims, thus requiring at least further consideration. The proposed changes to at least claims 1 and 7 contain unclearly stated/idiomatically improper limitations (i.e., "that heat-exchange is carried out in twice") which would introduce informalities and/or indefiniteness to the claims. Claim 1 as proposed lacks a period at the end and thus appears to possibly have a word(s) missing therefrom.

Continuation of 5. does NOT place the application in condition for allowance because: for example, applicant's arguments rely on limitations not claimed in the claims as finally rejected.

Continuation of 10. Other: The reply to the final rejection is incomplete because it does not include the cancellation (as required) of withdrawn claims 5 and 11 previously non-elected with traverse. See paragraph 5 of the final rejection mailed on 17 May 2004.
